FIFTEENTH ANNUAL
CATALOGUE AND

PRICE LIST.....

OF THE

HOME NURSERY

Located at LaFayette, Stark County, Illinois.

Grounds and residence one-fourth mile north of city. Office and grounds only five minutes walk from railroad depot, connected by sidewalk. Local and long distance phones.

IRVIN INGELS, PROPRIETOR.

RESIDENCE (IN WINTER).

I N this my Fifteenth Annual Catalogue and Price List, will be found a short and concise description of each kind and variety offered, which I trust will be helpful to those making an order. Where the selection of varieties is left to me, I will give them what I consider the best and most profitable to plant. Having had seventeen years experience growing fruit for the market, I am in a position to advise along this line.

Terms==Cash on Delivery

5 will be furnished at 10, 50 at 100, and 500 at 1000 rates. Stock that does not grow under proper treatment will be replaced at half price.

NO AGENTS EMPLOYED—We prefer to deal direct with the planter.

ORDERS BY MAIL—Special attention is given to mail orders, and all questions in regard to varieties, planting, cultivating, etc., will be promptly and cheerfully answered.

NO MONEY ASKED IN ADVANCE—When you receive your trees, and find them as ordered, the money for them will be due, and not before. We guarantee satisfaction, or no sale.

IF AFTER reasonable care has been bestowed, losses occur, it is my custom to replace such plants at one-half the regular catalogue price, or give equivalent value in other stock, but I do not insure their lives. Errors or omissions will always be cheerfully corrected, and if any plants prove to be not true to name and as represented, they will be replaced by others of correct kind and grade, without charge or the price originally paid for them refunded.

CERTIFICATE OF HEALTH—Our grounds are annually inspected by the state entomologist, and we hold a certificate from him that there is no dangerous insect, or contagious disease of fruits on our premises.

Price List.

APPLE TREES.

EACH 10 100

Standard trees, 5 to 7 ft. .30c \$2 50 \$20

When the selection of varieties is left to us the customer has the benefit of our experience as to hardiness and bearing qualities.

NOTICE—Our apple trees this year are mostly two years old and of medium light grade, but all of our own growing and in prime condition.

Summer Varieties.

Astrachan Red. Large, deep crimson, sub-acid.

Codlin. Rather large, conical, greenish yellow, juicy, pleasant acid, tree comes into bearing soon after planting.

Duchess of Oldenburg. Good sized, yellow streaked with red, juicy, rich, sub-acid, very productive, early bearer.

Early Harvest. Straw color, tender, juicy, fine flavor.

Golden Sweet. Large, yellow. A fine, sweet apple. Tree productive.

Yellow Transparent. White, tender and juicy, sub-acid. Tree bears as soon as established. Very productive.

Fall Varieties.

Bailey Sweet. Large, faintly striped and dotted red; flesh very tender but not juicy; flavor rich and sweet.

Bietigheimer. Very large, handsome, flesh white with a sub-acid, pleasant flavor, tree a productive and early bearer.

Famuse or Snow. Deep Crimson, flesh white, keeps well into winter, tree great bearer.

Gravenstein. Large striped of the very best quality.

Maiden's Blush. Large, beautiful, yellow with blush cheek, very best quality.

Porter. Large, oblong, yellow, flesh tender and of excellent flavor.

Wealthy. Large, red, sub-acid, tree bears very young. Immensely productive.

Wolf River. Large, handsome, yellow, shaded and striped red, juicy, pleasant spicy flavor, early bearer, keeps well into winter.

Winter Varieties.

Baldwin. Large, bright red, crisp, juicy.

Ben Davis. Large, striped, red, good bearer.

Domonie. Fine large striped apple, of extra fine quality, tree very profuse bearer.

Grimes Golden Pippin. Good size, yellow, of very best quality.

Golden Russet. Dull russet, crisp, juicy, rich.

Iowa Blush. Medium sized, fine tart flavor, tree vigorous and extremely hardy.

Jeneting. Medium size, good keeper, fine quality, tree very productive.

Jonathan. Medium size, dark red, extra fine quality.

Minkler. Large, greenish yellow, striped red, fine quality.

Missouri Pippin. Medium size, bright red, flesh white and firm, aromatic, good keeper, tree an early bearer.

Mann. Large, green, good keeper, mild sub-acid.

Northern Spy. Large, striped, mild, sub-acid, tender, delicious flavor.

Northwestern Greening. Very hardy, yellow, of good size, extra long keeper.

Pewaukee. Medium size, yellow, sub-acid, aromatic flavor, tree very hardy.

Rome Beauty. Large, yellow, shaded red, extra good quality.

Roman Stem. Medium size, yellow, light russeted, flesh tender, juicy, fine flavor.

Stark. Large, striped, coarse, mild sub-acid, valuable as a keeper.

Talman Sweet. Medium size, yellow, with shade of red, good quality.

Waldbridge. Medium, striped red, very hardy.

Wine Sap. Medium large, dark red, firm, crisp and juicy, widely cultivated.

Willow Twig. Well known variety, large, striped, sub-acid, splendid keeper, tree good bearer.

Dwarf Apple Trees.

Astrachan Red,	} On Paradise stock 2 years old, 3 to 4 feet,
Oldenburg,	
Yellow Transparent,	

40 cents each; per 10, \$3.00.

Apples grow as dwarfs come into bearing very much sooner than standards, in fact they begin to bear the second year after planting. The dwarfing makes them bear profusely. They are well adapted for town lots or small gardens where a large tree would not be desirable. The above list embraces the most popular summer varieties.

Crab Apple Trees.

	EACH.	Per 10
First class, 5 to 6 feet...	\$.35	\$3.00

Hyslop. Large, dark red, productive and valuable.

Tetofsky. Medium size, yellow, handsomely striped with red, tree extremely hardy and productive.

Whitney No. 20. One of the largest, juicy and pleasant, great bearer, excellent for cider.

STANDARD PEAR TREES.

	EACH.	Per 10
Kieffer, 6 to 7 feet.....	\$.50	\$4.00
Duchess, 5 to 6 feet.....	.50	4.50
Goodale, 4 to 5 feet.....	.40	3.50

Duchess. Large, buttery, rich, juicy, excellent, late fall, a popular market sort.

Goodale. Large and of excellent flavor, ripens early in July, tree hardy and productive.

Kieffer. Very large handsome pear, keeps well into winter. An early and abundant bearer, the best pear for this section of country yet produced.

Dwarf Pears.

Price, 3 to 4 feet, each 40c; per ten, \$3.50.

Duchess. For description see under Standard pears. This is the best pear grown, as a Dwarf comes into bearing soon after planting.

Seckel. Small, skin rich yellowish brown, flesh very fine grained, sweet, exceedingly juicy, melting, one of the richest and highest-flavored pears known.

CHERRY TREES.

EACH P 10
 2 yr. old, 1st class, 5 to 6 ft. . . 50c \$4.00
 1 yr. old, 1st class, 3 to 4 ft. . . 35c 3.00

Early Richmond. Large, bright red, most popular kind, very productive, bears soon after planting.

English Florrello. Blackish red, juicy, acid, good very late.

Late Duke. Very large, light red, tree upright grower.

Montmorency. Large, red, very productive, 10 days later than Early Richmond.

PEACH TREES.

First class, 5 to 7 feet high, each 25c; per 10, \$2.00; per 100, \$18.00.

Following varieties are arranged in their order of ripening, which extends from June into October. Except as noted, all free stonons.

Sneed. Medium, earliest peach known, season last of June, cling stone.

Alexander. Medium to large, skin greenish white, shaded to rich red, flesh very juicy, cling stone, July 1.

Champion. Large, handsome, early variety, creamy white with red cheek.

Hale's Early. Medium sized, flesh greenish white, half cling, excellent quality; tree very productive.

Bokara. Claimed to be the hardiest peach known, large, yellow, good quality.

Hill's Chili. Dull yellow, very hardy, large and fine.

Early Crawford. Large, yellow, excellent quality.

Wheatland Large, roundish, golden yellow shaded with crimson, flesh yellow and firm, sweet and of fine quality.

Late Crawford. Same as early, about 3 weeks later.

Kalamazoo. Large, yellow, very productive.

Elberta. Large, yellow with red cheek, hardy, prolific, one of the leading market sorts.

Crosby. One of the hardiest, abundant bearer, yellow, fine quality.

Old Mixen Free. Large, pale yellow, white flesh.

Stump. Very large, white with red cheek.

Wonderful. Large, yellow and red, yellow flesh, valuable.

We offer the following seedlings for the first time, all of which ripen in September:

Major. Medium to large, fine yellow peach; original tree raised from seed by Austin Grant, of LaFayette. Owing to its excellent flavor and the great productiveness of the tree, this variety has attracted considerable attention among local fruit growers.

Jonathan. Large yellow peach of the very richest quality. Raised from the seed about 1867 by Jonathan Carver on this place. The tree is still vigorous and productive.

Nana Alba. Small, white peach of fine flavor, raised from seed on this place a number of years ago; flesh and skin a creamy white, flavor the best, tree very productive.

Partial view of one of our Plum orchards.

PLUM TREES. European Plums.

5 to 6 feet high, each 40c, per 10, \$3.50.

German Prune. Large, dark purple,

green flesh, good bearer.

Green Gage. Very large, greenish, fine flavor.

Yellow Egg. Very large yellow plum. Tree a free grower and productive.

Japan Plums.

5 to 6 feet high, each 40c; per 10, \$3.50.

Abundance. Large, lemon yellow, oldest and best known Japanese sort, good quality.

Burbank. Very large, excellent quality, hardy tree, extremely productive.

Red June. Early ripening, medium large, red with yellow flesh, fine flavor.

Ogon. Bright golden yellow, one of the largest of the Japs.

Satsuma. Large, purplish crimson, with blood red flesh, delicious flavor.

Improved Native Plums.

5 to 6 feet, each 35c; per 10, \$3.00.

DeSota. Very similar to the Wisconsin Red or Miner, but ripens two weeks earlier; bears young and profusely.

Downing. Medium size, yellow, sweet, very hardy.

Hawkeye. Large, light red, tree hardy, thrifty, annual bearer.

Ingels. Large, greenish yellow, faintly purple on one side, covered with light dots, fine flavor, with a peculiar rich aroma, skin cooks up tender. Introduced by us five years ago; tree absolutely hardy, and an annual bearer, season August 20.

Klondike. Originated on my place nine years ago and has fruited annually since two years old. Large, red with purple bloom, flesh firm, carries well to market.

Milton. Large, dark red, flesh firm, thin skinned. It's a good quality, and extreme earliness makes it very valuable; season July 10.

Pottawattamie. An immense bearer, fruit large, yellow overspread with pink dots, very sweet.

Wolf. Free stone, large size, red, productive.

Wisconsin Red. Called Miner by some, very large, red, flesh solid, sweet, tree an annual bearer.

Wild Goose. Old, and widely planted, variety large, light red, very early, season July 15.

GRAPE VINES.

2 years old.

Agawam. (Rogers No. 15) very large, with thick skin, sweet, aromatic, ripens early. Each 25c; per 10, \$2.00.

Concord. Well known, standard variety, succeeds wherever grapes will grow, very prolific. Each 15c; per 10, \$1.00.

Lindley. (Rogers No. 9), large, amber colored, sweet and aromatic, early. Each 30c; per 10, \$2.50.

Moore's Early. Very large, purple, exceedingly hardy, two weeks earlier than Concord. Each 25c; per 10, \$2.00.

Moore's Diamond. The leading early white grape, vine like the Concord in growth, hardness and foliage. Each 30c; per 10, \$2.50.

Niagara. Large, greenish white, excellent quality. Each 25c; per 10, \$2.00.

Pocklington. Golden yellow, very aromatic and sweet. Each 25c, per 10, \$2.00.

Woodruff Red. Of iron clad hardness, large, amber color, ripens soon after Concord. Each 35c; per 10, \$3.00.

GOOSEBERRIES.

2 years old.

Houghton. (American variety), clear red when fully ripe, very prolific and profitable. Each 15c, per 10, 75c.

Downing. (American variety), large, white, valuable. Each 15c; per 10, \$1.00.

Industry. (English variety) Inch to inch and one-fourth in diameter. Free from mildew. The best English variety. Each 25c.

CURRENTS.

2 years old.

Red Dutch. Old and reliable sort. Each 10c; per 10, 75c.

White Grape. Very prolific, mild flavor, large. Each 10c; per 10, 75c.

Fay's Prolific. Heavy bearer, bright red, large size. Each 15c; per 10, \$1.00.

Cherry. Very large, mild sub-acid, Each 10c; per 10, 75c.

Pomona. New variety, highly recommended. Each 15c; per 10, \$1.25.

BLACKBERRIES.

Snyder. Well known, valuable, early variety. Per 10, 25c; per 100, \$2.00.

Erie. Vigorous grower, large berry. Per 10, 50c; per 100, \$3.00.

Ancient Briton. Very hardy, large size, late. Per 10, 50c; per 100, \$3.00.

NOTE.—Blackberries, as well as currants and gooseberries, like rich soil and should be heavily manured and well cultivated to get good results.

RASPBERRIES.

Gregg (black cap). Well known, large, late variety. Per 10, 30c; per 100, \$2.50.

Palmer (black cap). Very early, extra hardy, heavy bearer. Per 10, 30c; per 100, \$2.50; per 1000, \$12.00.

Kansas (black cap). Vigorous grower, berries very large and fine, ripen soon after Palmer. Per 10, 40c; per 100, \$3.50.

Eureka (black cap). Very large, late, fine flavored, prolific. Per 10, 50c; per 100, \$3.50.

Munger (black cap). New, extra large, very late, valuable. Per 10, 50c, per 100, \$4.00.

Cuthbert (red). Best of the reds, long season. Per 10, 30c; per 100, \$2.00.

Turner (red). Canes thornless, bright red berries. Per 10, 30c; per 100, \$2.00.

For large quantities of any of the above varieties write for special low prices.

STRAWBERRIES.

First class plants. Per 10, 25c; per 100, \$1.00; per 1000, \$8.00.

The following varieties will be found to be the best. Have made a specialty of strawberry culture for a number of years and grow only the kinds we know to be good. When the selection of varieties is left to me will give good assortment.

MALE VARIETIES

Bederwood
Brandywine
Downing
Clyde
Gandy
Timbrell
Jessie
Lovett's Early
Michel's Early
Nich Ohmer
Parker Earl
Sharpless
Sucker State
Wilson
Wm. Belt

FEMALE VARIETIES

Bubach No. 5
Haverland
Lady Thompson
Mt. Vernon
Timbrell
Warfield

By planting both early and late varieties you can have fresh strawberries from 4 to 5 weeks in succession. They produce the most per acre and do it in less time after planting than any other fruit.

NOTE—Have given no description of Strawberries as they are *all good*. While one variety may produce better than another one year, it may not the next. Hence there is no one variety that is the best every year.

Owing to the variability of the pollen, it is a good rule to plant a number of kinds in one plantation. Also set early and late varieties to give a succession of fruit. In growing the plants we keep each variety properly labeled, so that our plants are true to name. They are grown on very strong land; are not to be compared with the small, sickly plants grown on sand and offered at a low price.

MISCELLANEOUS.

Rhubarb Linneas, (pie plant), fine and tart. Each 15, per 10 \$1.00.

Asparagus, Conover's Colossal, very large, tender, per 10 25 cents, per 100 \$1.50.

Dwarf Juneberry, ripens in June, profuse bearer, 25 cents each.

Osage Hedge, plants 1 year, 1st class, per 100 50 cents, per 1000 \$3.00.

Berry Box Lumber at wholesale price.

Vegetable plants in season: cabbage, tomato, celery, etc.

ORNAMENTAL TREES.

Weigelia Hendersoni , pink; bloom in June and July so full as to nearly hide the foliage. Very desirable shrub.....	25c
Yucca Filamentosa , green during winter, blossom white.....	25c

HARDY CLIMBING PLANTS.

2 Years Old,

American Ivy , excellent climber, beautiful autumn foliage.....	25c
Trumpet Vine , large trumpet-shape flowers, vigorous grower.....	25c
Clematis Jackmani , large purple, blooms from July until frost....	75c
Clematis Henryi , white, excellent bloomer.....	\$1 00
Clematis Paniculata , very rapid growth, small white flower....	50c
Honeysuckle Halliana , bloom all summer, very fragrant.....	35c
Honeysuckle Chinese Evergreen good bloomer, holds foliage into winter.....	35c
Purple Wisteria , splendid hardy climber, flowers in large clusters, pale blue.....	35c

HARDY ROSES.

Hybrid Perpetual.

Paul Neyron , 2 feet high, very large, deep clear rose color.	
Gen Jacquimenot , dark velvety red, fine bloomer; Mad. C. Wood , bright crimson, low growth; Cos. Des Alps , pure white, one of the finest, each...	35c

The above class of roses bloom throughout the season, and when once established, improve in beauty every year.

Hardy Climbing Roses.

Prairie Queen, one that will always be popular, double, bright rosy red, each 30c.

Crimson Rambler, of recent introduction, proves to be extra hardy, free bloomer and strong grower, flowers are produced in clusters of 35 to 40 each, color dark crimson, each 50c.

June Roses.

Bloom profusely in June, each 25 cents.

Persian Yellow, finest hardy yellow ever grown.

Mad. Plantier, splendid white, great bloomer.

Sweet Briar, old and favorite variety, fragrant.

Moss Roses.

Buds and branches covered with moss-like prickles, each 40 cents.

Crimson Globe, rich deep crimson fine.

Blanch Morean, very large pure white.

Specimen Evergreens in the grounds. Taken in winter.

EVERGREENS.

	EACH	\$ 10	\$ 100
Arbor Vitae (Am.)			
15 to 18 in. high			
stocky.....	25c	\$1.00	\$6.00
Arbor Vitae (Am.)			
18 to 24 in. high			
stocky.....	25c	1.50	8.00
2 to 3 feet.....	30c	2.00	12.00

EACH ₧10 ₧100
Arbor Vitae (Pyramadalis). 12 to 15 in. high, fine..... 35c

The Arbor Vitae is well adapted for either ornamental hedging or windbreaks. Rapid grower, perfectly hardy, native. Easily transplanted. For hedging, set 12 to 16 inches apart; windbreaks, 3 to 4 feet, in rows.

Black Hills Spruce.
 Fine specimen, 3 to 4 feet high..... 50c \$4.00 \$25.00

Fine specimen, 4 to 5 feet high..... 75c 5.00 25.00

Variety of white spruce from South Dakota, admirably adapted to planting in dry and windy situations, where other evergreens fail. Makes medium, rapid and symmetrical growth, foliage a bluish green, very dense and compact, fine for lawn, park or cemetery.

Colorado Blue Spruce, fine plants, 15 to 18 inches.... 25c \$2.00 \$10.00

Variety of American spruce from Colorado, a rapid grower, foliage a beautiful bluish green, sturdy, compact, dense growth. A very handsome tree for lawn or park. Will be the coming tree for shelter belts.

EACH ₧10 ₧100
Norway Spruce.
 Transplants, 12 to 15 inch..... 10c \$0.80 \$6.00
 Stocky, 15 to 18 in... 15c 1.00 8.00
 Stocky, 18 to 24 in... 25c 1.50 10.00
 Fine specimens, 3 to 4 ft..... 40c 3.50

This is the big tree of Norway and more widely planted than any other for windbreaks and shelter belts. Of very rapid growth, easy transplanted.

Red Cedar, transplants, 15 to 18 in. 25c \$2.00 \$15.00

A native tree; while it never makes a very large tree, it grows very rapidly while young. On account of its quick growth and dense foliage it is very valuable for windbreaks and screens, also fine for ornamental hedging.

Pine, White, specimen plants, 3 to 4 feet..... 50c \$3.50

Pine, Scotch, transplants, 18 to 24 in. 25c 1.50 12.00

The pines are of very rapid growth and are well suited for shade or shelter belts, especially where large trees are desired.

The upper part of this cut shows a general view of the home grounds (at the right hand and tenant houses. Lower view shows home grounds only.
